I'm a Information Technology student with a strong interest in full-stack web development, Android development, and artificial intelligence. I'm driven by curiosity and a commitment to continuous growth in the tech industry.

EDUCATION

Sree Vidyanikethan Engineering College
B.Tech in Information Technology & Engineering

Dec2021 – Aug2024
CGPA – 7.28 / 10

SKILLS

Web Technologies: HTML, CSS, JavaScript.

Programming Language: Java.

Operating System: Windows, Linux.

Backend Technologies: JDBC, Hibernate, Servlets, Spring.

Database & Languages: Oracle SQL.

Control Version: Git & GitHub

WORK EXPERIENCE

Salesforce Developer Virtual Internship-

Jul 2022 - Sep 2022

- Successfully completed an 8-week Salesforce Developer Virtual Internship, gaining expertise in Salesforce Fundamentals, Apex, Process Automation, and Lightning Web Components (LWC).
- Earned Super Badges: Apex Specialist and Process Automation Specialist.

PROJECTS

- Developed **JSPGram**, a social media web app with user authentication, OTP verification, and a dynamic home feed. Implemented profile management using Cloudinary, integrated Razorpay for premium subscriptions, and enabled user interactions such as liking, commenting, and post management. Managed followers/following with real-time updates, ensuring a seamless experience with HTML/CSS/JavaScript (frontend) and Spring Boot (backend).
- Developed an interactive music streaming website **ManaMusic** using HTML, CSS, and JavaScript. The platform categorizes songs based on language, offering a visually appealing and user-friendly interface. It features a dark-themed UI, a responsive navigation bar, and interactive elements to enhance user engagement. The project demonstrates front-end development skills and a keen focus on UI/UX design for an immersive music experience

AWARDS & ACHIEVEMENTS

- **Co-Ordinator for TAIT (Technical Association of Information Technology)** Branch Committee, responsible for organizing and overseeing technical events, fostering collaboration among students, and ensuring the smooth execution of branch-level initiatives. Recognized for leadership, teamwork, and contribution to the IT community.

Apr 2022 - Apr 2024
- **Google Cloud Certified Associate Cloud Engineer**

May 2024 - May 2027
