I'm a Computer Science & Engineering student with a strong interest in full-stack web development, Android development, and artificial intelligence. I'm driven by curiosity and a commitment to continuous growth in the tech industry.

EDUCATION

Sree Vidyanikethan Engineering College $Dec 2021 – Aug 2024$

B.Tech in Information Technology & Engineering | CGPI – 7.28 / 10

SKILLS

Web Technologies: HTML, CSS, JavaScript.

Programming Language: Core Java.

Operating System: Windows, Linux.

 SDLC & Agile

Backend Technologies: Java, JDBC, Hibernate, Servlets, Spring.

Database & Languages: MySql, Oracle SQL.

DevOps Tools

Git & GitHub, Maven, Jenkins, Docker & DockerHub, Ansible, Terraform and Kubernetes.

WORK EXPERIENCE

Salesforce Developer Virtual Internship-   *Jul 2022 - Sep 2022*

- Successfully completed an 8-week Salesforce Developer Virtual Internship, gaining expertise in Salesforce Fundamentals, Apex, Process Automation, and Lightning Web Components (LWC).
- Earned Super Badges: Apex Specialist and Process Automation Specialist.

PROJECTS

- Developed an **Esophagus Cancer Detection System using YOLOv8**. The application utilizes advanced object detection and image recognition techniques to identify and localize cancerous regions in medical images. The system features high accuracy and real-time processing capabilities, providing a robust solution to assist medical professionals in early diagnosis and treatment planning. This project demonstrates the potential of AI in healthcare by streamlining diagnostic processes and improving patient outcomes.
- Developed an AI-powered **Automated Attendance System** using Python, OpenCV, and Flask. The application leverages facial recognition for accurate and real-time attendance tracking, featuring a user-friendly web interface for managing users and storing attendance records in Excel sheets. This project enhances efficiency, reduces manual errors, and provides scalable solutions for educational and workplace environments.

AWARDS & ACHIEVEMENTS

- **Co-ordinator for TAIT (Technical Association of Information Technology)** Branch Committee, responsible for organizing and overseeing technical events, fostering collaboration among students, and ensuring the smooth execution of branch-level initiatives. Recognized for leadership, teamwork, and contribution to the IT community.   Apr 2022 - Apr 2024
- **Google Cloud Certified Associate Cloud Engineer**   May 2024- May 2027

INTERESTS

Creating Memes & digital illustrations, listening podcasts.
